

Important News about your SHPS Spending Account Card

When you use your SHPS Spending Account Card for an eligible healthcare expense at one of the retail locations listed below, your purchase will be automatically authorized. This also means that your card will only be accepted for purchasing eligible items. If you are purchasing ineligible items, you will be asked for another form of payment. This change also means that you may not be able to use your card at some retail locations that previously accepted the card. Grocery and discount stores not on this list will not accept your card for payment. This new legislative requirement is effective 1/1/08.

Additional retail locations will be added to this list in the coming weeks and months. Please check www.myshps.com for updates.
